

## Product Name

### 3-Ball Cascade Juggling Learning Guide

## Product Description

The 3-Ball Cascade Juggling Learning Guide is view-only, interactive Google Slides document designed to help your students master the 3-Ball Cascade pattern!

The guide is broken down into six learning levels with each level having three progressions of its own. Each level progression page has an animation of the progression being performed, a description of the progression, important keys to remember, and common challenges students face at that progression along with solutions to those challenges.

Students can self-directed their way through the 18 available steps as they work on mastering this classic juggling pattern!

## Product License

Instead of some fancy legal talk, here's what you should know in plain English:

- This item (or any of its parts) may not be resold. You can use it in your teaching and include it in your presentations, but do not sell it as part of any product you sell without my written consent. If you do use this item in a presentation, please reference ThePhysicalEducator.com.
- This item cannot be used on merchandise for sell. I know it looks nice, but you can't make it into a T shirt.
- This item cannot be used as a logo for your brand, site, store, etc.

## Product Contents

This product contains one PDF file with instructions on how to access the Juggling Learning Guide in your browser.

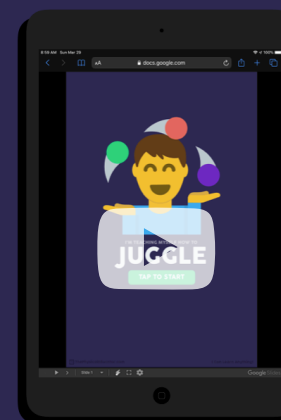

## Accessing The Learning Guide

- 1 Access the view-only Juggling Learning Guide by clicking the button below.

[Access The Juggling Learning Guide](#)

- 2 To share the document with your students/devices, open the Learning Guide and copy the link in your URL. Send that link to your students/devices (e.g. email, Google Classroom, etc) and they will be able to open the document in their browser.
- 3 Please note that - as specified on the product page - this document is **meant to be view-only**. Requests to edit/modify the document will not be accepted. I'm not trying to be rude, folks! There's just a lot going on in the world and I need to stay focused on my family and work!
- 4 Thank you so much for supporting ThePhysicalEducator.com! Stay safe and happy teaching!
